**Round Robin** started as a free trilingual newspaper in Chinese, English, and Spanish for communities in Chinatown, LES, and Two Bridges.

This summer, the **Round Robin** newspaper will come to life in the form of a collaborative forum for self-empowered leadership, cross cultural solidarity, and language access.

**Art Parley** invites all immigrants and local residents to participate in this forum through in-person summer workshops to create a network of communication channels and platform involving creative forms of expression in the Chinatown, LES, and Two Bridges neighborhoods.
